

ALMA RECORD.

C. M. Fleming, Editor and Proprietor.

ALMA, MICH., THURSDAY, FEBRUARY 19, 1903.

TIMELY TOPICS.

If workmen would heed the advice and timely suggestions of Grand Master Workman Powderly, it would be of incalculable benefit not only to the laborer and his family, but to the country at large. In a recent letter Mr. Powderly said: "If many of the men who are striking would display all the more common sense and use a little more patience they would get all the striking or save their time and money in the bargain. If they would exercise proper moderation in their negotiations with their employers and submit their claims, frankly made and properly represented, to arbitration, I am free to say that I am sure that nine out of ten cases which ended in a strike could be as satisfactorily arranged without resorting to such an extreme and generally doubtful expedient. Indeed, in the nine cases there would be no necessity for a strike. There is a feeling now that laborer must be recognized by the employer; that the employer must listen to the employee and a time has come when the shopman, the mill owner, the manufacturer in every department of trade, is ready to listen to the demands of his men, and to yield to them, when those demands are reasonable. Organizations, discipline and realization of the right and the might in the case, has brought about this change, and these advances on the part of the employers should not be repulsed by hasty and inconsiderate action on the part of the workmen."

SENATOR BLAIR says the Educational bill, as it recently passed the Senate, is an improvement upon the bill of last year. None of the amendments which were made will impair its efficiency, while several of them add considerably to the merits of the bill. Some features of the original bill introduced several years ago, but which were struck out by the Senate have now been replaced. One of these was that making a provision for Alaska, hitherto almost entirely neglected. Its proportion of \$100,000 for the first year will amount to \$200,000 for the second year, and \$250,000 for the third year. In places which are unable to bear the cost on necessary to provide buildings for themselves, Mr. Blair thinks an admirable and important feature of the bill. It should build about twenty thousand school houses. Senator Blair entertains no doubt that the bill will pass the House, where it already has many ardent supporters. He does not credit the report that it will be opposed by a free trader and tariff reformer as a possible obstacle to the accomplishment of their purposes.

The New York Sabbath Committee offers prizes to be competed for by workmen and women, or traders and their employees. A purse of \$100 or the best essay on "Sunday and the Workingman" of from 5,000 to 10,000 words, to be written by a workman or woman; a like prize for the best essay on "Sunday Trading," to be written by a retail storekeeper or employee; a like prize for the best essay on "Sunday Amusements," to be written by a workman or by an employer of some place of amusement.

Frank Mullin a Philadelphia expressman, was taking a box containing two striped hyenas to the Philadelphia Zoo the other day, when he felt a particularly warm and vigorous tooth on the back of his neck. He looked around and saw that there was a big hole in the box, large enough to permit either of the beasts to escape, but which was filled by the heads of both hyenas, whose white teeth gleamed unpleasantly near his back. With a yell Frank whipped up the horses and dashed through the streets like a mad man, never stopping until he reached the Zoo. There the hyenas were beaten back and the hole was boarded over. Mr. Mullin did not fully recover for a day or two.

Worcester, Mass., is troubled because it has leaked out that lively men there are in the habit of hiring out horses that they are boarding, and that coachmen not infrequently use their employers' horses and carriages in doing a little night work on their own account. One of the sad results of such wickedness on the part of the liverymen is thus reported: "A gentleman and his wife were out driving, and, while passing a house of a doubtful character, the horse suddenly, but with familiarity, turned up into the dooryard. 'Guess you are acquainted here are you not?' exclaimed the lady. The gentleman was nonplussed, and assured his wife that such was not the case. When he got home he made inquiries, and found that some of the boys had been hiring the animal to take a moonlight ride."

Alonso E. St. dard, the well-known baritone, never laughs at his own jokes. Electricity Edison runs a car in getting married a day. He is very dead.

Minnie Madden, the charming actress, is a poetess, but never writes topical songs. Senator Edmunds recently celebrated his fiftieth birthday, but he looks at least ten years older.

Memory is the shadow of the heart.

The best sort of revenge is not to be like him who does the injury.

THE STATE AT LARGE.

Railroad Disaster.

A terrible accident occurred on the Michigan railroad on the morning of the 18th. The south-bound express train left Marshall at 1:30 p. m., with a large number of passengers. All went well until the train reached a point about 10 miles from Marshall and 10 miles from Leeland station, where there is a sharp curve in the track. At this point the train, consisting of an engine, a passenger car, and two passenger coaches, suddenly left the track, only one car, the rear coach, was overturned. This coach, containing 10 passengers, was crushed and went with terrible force into the ditch.

Almost all the passengers had sustained injuries more or less, and many of them were seriously and some fatally injured. The passengers who were most seriously hurt were:

John H. Hurd of Bridgeport, Conn., who is a member of the Detroit & Michigan elevator, had both wrists broken and received a terrible cut on the head. His injuries are so serious that he is expected to die. He was sent to Marshall for treatment.

Max M. Epitola of Toledo, O., was badly cut about the head and forehead. He is a member of the Toledo & Michigan elevator, and was traveling with his family. He is expected to die.

Mrs. W. J. W. of Jonesville, Mich., was traveling with her family. She was traveling with her family. She was traveling with her family.

Mrs. M. Friedman of Muskegon, Mich., was traveling with her family. She was traveling with her family. She was traveling with her family.

CRIMES AND CASUALTIES.

Explosion of Fire Damp.

Eight years of explosions took place in the coal mine at Dunbar, four miles from Conneville, Pa., on the 18th inst. by which 12 men were killed and 10 others injured. The explosion occurred at 12:30 p. m. and was a terrible one. It was followed by two others in quick succession. The first explosion occurred at 12:30 p. m. and was a terrible one. It was followed by two others in quick succession.

The second explosion occurred at 1:30 p. m. and was a terrible one. It was followed by two others in quick succession. The third explosion occurred at 2:30 p. m. and was a terrible one. It was followed by two others in quick succession.

The fourth explosion occurred at 3:30 p. m. and was a terrible one. It was followed by two others in quick succession. The fifth explosion occurred at 4:30 p. m. and was a terrible one. It was followed by two others in quick succession.

The sixth explosion occurred at 5:30 p. m. and was a terrible one. It was followed by two others in quick succession. The seventh explosion occurred at 6:30 p. m. and was a terrible one. It was followed by two others in quick succession.

The eighth explosion occurred at 7:30 p. m. and was a terrible one. It was followed by two others in quick succession. The ninth explosion occurred at 8:30 p. m. and was a terrible one. It was followed by two others in quick succession.

The tenth explosion occurred at 9:30 p. m. and was a terrible one. It was followed by two others in quick succession. The eleventh explosion occurred at 10:30 p. m. and was a terrible one. It was followed by two others in quick succession.

The twelfth explosion occurred at 11:30 p. m. and was a terrible one. It was followed by two others in quick succession. The thirteenth explosion occurred at 12:30 a. m. and was a terrible one. It was followed by two others in quick succession.

The fourteenth explosion occurred at 1:30 a. m. and was a terrible one. It was followed by two others in quick succession. The fifteenth explosion occurred at 2:30 a. m. and was a terrible one. It was followed by two others in quick succession.

The sixteenth explosion occurred at 3:30 a. m. and was a terrible one. It was followed by two others in quick succession. The seventeenth explosion occurred at 4:30 a. m. and was a terrible one. It was followed by two others in quick succession.

The eighteenth explosion occurred at 5:30 a. m. and was a terrible one. It was followed by two others in quick succession. The nineteenth explosion occurred at 6:30 a. m. and was a terrible one. It was followed by two others in quick succession.

The twentieth explosion occurred at 7:30 a. m. and was a terrible one. It was followed by two others in quick succession. The twenty-first explosion occurred at 8:30 a. m. and was a terrible one. It was followed by two others in quick succession.

The twenty-second explosion occurred at 9:30 a. m. and was a terrible one. It was followed by two others in quick succession. The twenty-third explosion occurred at 10:30 a. m. and was a terrible one. It was followed by two others in quick succession.

The twenty-fourth explosion occurred at 11:30 a. m. and was a terrible one. It was followed by two others in quick succession. The twenty-fifth explosion occurred at 12:30 p. m. and was a terrible one. It was followed by two others in quick succession.

The twenty-sixth explosion occurred at 1:30 p. m. and was a terrible one. It was followed by two others in quick succession. The twenty-seventh explosion occurred at 2:30 p. m. and was a terrible one. It was followed by two others in quick succession.

The twenty-eighth explosion occurred at 3:30 p. m. and was a terrible one. It was followed by two others in quick succession. The twenty-ninth explosion occurred at 4:30 p. m. and was a terrible one. It was followed by two others in quick succession.

The thirtieth explosion occurred at 5:30 p. m. and was a terrible one. It was followed by two others in quick succession. The thirty-first explosion occurred at 6:30 p. m. and was a terrible one. It was followed by two others in quick succession.

The thirty-second explosion occurred at 7:30 p. m. and was a terrible one. It was followed by two others in quick succession. The thirty-third explosion occurred at 8:30 p. m. and was a terrible one. It was followed by two others in quick succession.

The thirty-fourth explosion occurred at 9:30 p. m. and was a terrible one. It was followed by two others in quick succession. The thirty-fifth explosion occurred at 10:30 p. m. and was a terrible one. It was followed by two others in quick succession.

The thirty-sixth explosion occurred at 11:30 p. m. and was a terrible one. It was followed by two others in quick succession. The thirty-seventh explosion occurred at 12:30 a. m. and was a terrible one. It was followed by two others in quick succession.

The thirty-eighth explosion occurred at 1:30 a. m. and was a terrible one. It was followed by two others in quick succession. The thirty-ninth explosion occurred at 2:30 a. m. and was a terrible one. It was followed by two others in quick succession.

The fortieth explosion occurred at 3:30 a. m. and was a terrible one. It was followed by two others in quick succession. The forty-first explosion occurred at 4:30 a. m. and was a terrible one. It was followed by two others in quick succession.

LABOR MATTERS.

Labor Troubles.

There is apparently no change in the situation regarding the strike on the western and central Pacific coast. The strike on the western coast is still in progress. The strike on the central coast is still in progress.

The strike on the western coast is still in progress. The strike on the central coast is still in progress. The strike on the eastern coast is still in progress.

HOUSEHOLD HINTS.

Eggs—Spread crumbs thickly on a plate or platter, butter, pepper and salt; break eggs in a circle, cover with crumbs and seasoning, set in the oven a few minutes.

Easy Pudding—Take a can of any fruit you prefer and turn it into a deep dish. Then make a paste of flour and cream, in which is a little baking powder first stirred. Pour over the fruit and bake quickly. Serve with cream or sweet sauce.

Apple Jelly Cake—One coffee cup of sugar, one-half cup of butter, two eggs, beaten separately, one cup of milk, three cups of flour, and two teaspoonsful baking powder. Beat well and bake in three separate sheets; while hot, spread the apple jelly between and sprinkle powdered sugar over the top.

Tea Cakes—One pound and two ounces of flour, a quarter of a pound of butter, six ounces of lard, half a pound of sugar, half a pound of raisins, two eggs, and a little salt. Mix the flour and butter together, beat the eggs and sugar and mix with the paste. Roll out rather thin, cut into small cakes and bake. While warm sprinkle them with sugar.

Apple Marmalade—Wipe the apples well and do not pare, but core and slice them. Have ready a syrup of three pounds of sugar to a pint of water, boiled quickly for five minutes. Into this boiling syrup throw the sliced apples and boil until rapidly for an hour, reckoning from the time of its first boiling. Stir often. It should then be clear, jellified and rather stiff. Allow three pounds of sugar to four apples.

Good tea cakes are made in the old fashioned way with two cups of milk, one cup of shortening, one cup of sugar, two eggs, one cup of yeast, one teaspoonful of salt. Strain the milk and eggs through a sieve together and mix over night with the milk rather warm, make as stiff as bread and knead again in the morning. Work into small rolls after the second rising, and bake when they have risen again in the pan.

Cocoanut Cake—Beat the whites of six eggs to a froth, take a little more than half a cup of butter, one and a fourth cups of pulverized sugar, two cups of flour, half of a lemon, and one small wineglass of water and a small teaspoonful of soda. Bake in two flat tins and spread between and over the cakes the following mixture: Half a cup of water, a cup and a half of white sugar, beat into a thick syrup and when it is partially cool pour it upon the whites of two eggs beaten stiff. Stir in the whole of a small grated cocoanut.

Meat cakes—The remains of a cold roast or boiled leg of mutton, that has been rarely cooked, will be most delicious if prepared as follows: Chop the meat as fine as possible and mix it with half as much fine bread-crumbs and a quarter as much beef suet, also chopped very fine and freed from strings. Put these ingredients into a bowl, with a cupful of minced oysters (fresh ones, of course, are best), well beaten eggs, salt, pepper, and a little powdered suet; mix with two well-beaten eggs for a pound of the cold mutton; stir until it forms a stiff paste, form into balls or sausages and fry.

German Ginger Cakes—Are made of one pound of flour, twelve ounces of sweet butter, the same of sugar, two ounces of the best ground ginger and the yolks of eight eggs. Work all these ingredients together well on a just warmed and floured board, kneading mould it into a compact roll. Then with a sharp knife cut it across into thin cakes. Place the cakes on a buttered pan and bake rather slowly. The dough should be quite stiff, and more flour than the quantity given may be used if necessary. The cakes may be used for sandwiches, or from being cut across the grain, but they are good and keep fresh for a long time.

Broad an Butter Pudding—A very nice pudding is made by taking the crust from a loaf of bread and cutting the soft part into slices and spreading them rather thickly with butter; sprinkle currants between the slices and pour over them a boiled custard flavored with vanilla. Set it aside for twenty minutes to soak, then take about seven minutes to serve with any kind of sweet sauce. It is some of the pudding is left from the first serving, beat it all together and sweeten to taste and put it in the oven ten minutes before it will be a meringue over it, and set it back in the oven a moment to brown.

Choosing Fish in choosing fish one has a chance to show considerable judgment. Fish should be fresh to be at their best—should be just from the water, but this is not always possible. The freshness of fish is indicated by its being firm and still in a prime condition. If held out in the hand horizontally it will remain rigid; any drooping of the tail shows it is not quite right, and the extent of this drooping is a fair guide in judging of its condition. I have noticed that the fish have been sold in the market in a very limp and being good, the poor and ignorant buy them. Poisonous qualities begin to develop in fish as soon as they decay, however slight, takes place—Herold of Health.

An Out West Eating House. It was on the Union Pacific railway, at one of those just celebrated eating houses which I understand are now being demolished. The colored waiter and out of a strip of the omelet with a pair of shears, the scorched omelet had been passed around, the little rubber door mats, fried in butter and called pancakes, had been dealt around the table, and the cashier at the other end of the hall had just gone through the clothes of a party from Vermont, who claimed a rebate on the gum that the waiter refused to bring him anything but his bill. There was no sound in the dining room but the weak cry of the coffee for more air and stimulants, or perhaps the cry of pain when the butter, while practicing with the dumbbells, would hit a child on the head, then all would be still again—Bill Nye.

The Prodigal. Judging from the remark of the *Farmers Press* the prodigal son business is certainly played out in Nebraska. It reports that a young son of a rich farmer, who ran away from home and became a log tender, was recently eaten by a bear while asleep in a straw stack.—Omaha Herald.

CRIMES AND CASUALTIES.

Explosion of Fire Damp.

Eight years of explosions took place in the coal mine at Dunbar, four miles from Conneville, Pa., on the 18th inst. by which 12 men were killed and 10 others injured.
